School of Nursing and Health Studies Immunization Form

The School of Nursing and Health Studies (SONHS) requires that all nursing students submit valid immunization and physical exam records prior to beginning nursing coursework. Once enrolled, nursing students must remain current and in good standing on each of these requirements or they may be removed from courses and/or clinical activities.

Nursing students must work with their healthcare provider to fill in the immunization information below. This form should be used to provide initial immunization information as well as any required updates throughout their time in the nursing program. The deadline to submit immunization records is August 22nd for the fall term, January 15th for the spring term, and April 15th for the summer term. Failure to submit immunization records by these deadlines may lead to a $50.00 fine, a CaneLink clinical hold, and/or removal from courses and/or clinical activities.
